YORK AND SELBY SPECIALIST CAMHS REFERRAL PROCESS

To deliver community based direct and indirect services including advice, assessments, diagnostic service and intervention for children and young people experiencing mental health and emotional problems, or learning disabilities and their carers/families.

Every child and young person in contact with the Service receives the care they need to enable them to fulfil their potential in life.

Care is:
- Designed to be effective in order to attain specified outcomes
- Centred on the child or young person
- Provided through a multi-disciplinary, multi-agency framework
- High quality

High quality encompasses:
- Clinical excellence
- Safety of patient
- As positive a patient experience as possible

Access to service is via:
CAMHS Single Point of Access:
Referral Email Address – tewv.camhsspayorkselby@nhs.net – 01904 615345.

Our philosophy of care

As a provider of children’s and young people mental health services our mission is to:

- To work with children with mental health complex needs, understand what they want to achieve
- To impact positively on the complex needs of children with mental health conditions by understanding their hopes, building their resources, protecting their interests and improving their ability to function within their family and community

We know that by promoting good mental health and intervening early, particularly in the crucial childhood and teenage years, we can help to prevent mental illness from developing and mitigate its effects when it does' (NHWMH, 2012).

The core specialist CAMHS function is:

- To provide assessment and treatment of moderate to severe mental health issues and associated risks in young people under the age of 18 (to 18th birthday).
- Acknowledge that all young people may experience distress in reaction to life events, transition or family disharmony but those without a clear mental health component to their presentation can be supported by Universal Services and Targeted Services (see information provided in this document).

CONFIDENTIALITY AND CONSENT

Before discussing a child or young person with a CAMHS practitioner, we would ask that you always gain permission from their parent or guardian. If a young person is aged 16 or over you can get permission from them directly, however it is usually advisable that the parent or guardian is made aware.

You can discuss a child or young person with us without giving their name. However, before making a formal referral, the referrer should gain the consent of the young person and/or responsible parent/guardian.

Presenting problems

Children, young people up to their 18th birthday, (and their families) with an enduring Mental Health needs or distress which is impacting upon their day-to-day functioning and cannot be resolved with appropriate intervention by Universal and Targeted Services within Health, Local Authority Prevention Service; the FEHA process; Social Care; Education Services and the Voluntary Sector.

These problems may include:
- Severe deliberate self-harm and/or risk of suicide
- Depression/mood disorders
- Psychosis (the Early Intervention Psychosis Team for Young People 14+ may be more appropriate.)
- Anxiety Disorders (life affected day to day) i.e. OCD, PTSD
- Eating Disorders
- Significant/complex emotional/behavioural difficulties that have not improved following Universal or Targeted Interventions i.e. conduct disorder
- Neurodevelopmental / hyperkinetic disorders i.e. ADHD (depending on local commissioning arrangements)

Factors to consider when deciding to refer:
- duration of problem
- level of distress to child/young person and family
- number of areas of child/young person’s life which is affected i.e. home, school, friendships, interests and hobbies.
- other agencies that are involved and how their work is progressing.

Other factors to consider prior to considering CAMHS are:
- If there is a **Safeguarding issue** then Social Care should be consulted.
- If the child has a learning disability is there or Health and Disability Team or Disabled Children Team?
- If the issue is related to family separation, has the family been offered information regarding Relate or some other mediation service for parents in conflict?
- **Does the family want referral to a mental health service?** Explicit consent is required.

Has the referral been discussed with the family, child or young person

**Referral Criteria to Specialist CAMHS**

Please note that diagnosis may be made following an assessment with specialist CAMHS

**Attention Deficit Hyperactivity Disorder.**
- For initial assessment and diagnosis, follow NICE guidelines
- Complex ADHD cases with co-morbidity should be referred to Specialist CAMHS

**Eating Disorders – Please see Appendix A**
- Anorexia – low weight/ weight loss/ food restriction/ exercising excessively
- Bulimia – Engaging in binge and purge behaviour

**Psychotic Illness**
- Positive symptoms – Paranoia, delusional beliefs, abnormal perceptions (hallucinations on all sensory modalities)
- Negative symptoms – deterioration in self-care and daily personal, social and family functioning
- Disinhibited behaviour, over activity, risk taking, with pressure of speech and agitation
- Severe depression with psychomotor retardation, social withdrawal, suicidal ideation

**Anxiety Disorders**
- Anxiety panic attacks
- Separation anxiety
- Phobias including phobic anxiety related to school

**Depression**
- Physical symptoms – poor sleep/appetite/libido
- Cognitive symptoms – negative thoughts about self/others/world
- Suicidal ideation – level of intent, current thought, etc
- Co-morbidity – depression often occurs concurrently with other presenting mental health problems

**Post Traumatic Stress Disorder**
- Symptoms occurring more than 3 months after a recognised traumatic event
- Intrusion and avoidance of thoughts and memories about the trauma
- Hyper-vigilance, hyper-arousal and emotional numbing

**Obsessive Compulsive Disorder & Tourettes**
- Obsessions and/compulsions with functional impairment
- Tourettes Syndrome with complex motor and vocal tics, particularly with co-morbidity with OCD and rage

**Deliberate Self Harm**
- If accompanied by significant suicidal ideation
- If presenting with a pattern of emotional dysregulation, interpersonal difficulty and maladaptive coping strategies

**Attachment Disorders**
- If presenting with a persistent pattern of abnormal functioning in interpersonal relationships with a co-morbid severe mental health condition

**Specialist CAMHS will also see individuals with the following presentations, if there is evidence of co-morbidity with a serious mental health condition.**

- Drug and alcohol problems
- Conduct disorder
- Children with learning disabilities
- Obesity
- Enuresis/Encopresis
- Chronic fatigue/somatisation syndrome if the overriding components

• Traumatic reaction/Post abuse, at least a few months after incident, with evidence of disturbance of arousal, repeated experiencing of event  
• Assessment for ADHD/ Hyperkinetic disorders  
• Chronic Physical Illness/Somatic disorders with clear impact on child’s mental health (and/or on family functioning/well-being).  
• Children/Youth people where there is a request for a diagnostic service for Autism.  
• Suspected Eating Disorder in the amber/green/blue range of the junior marziban guidelines. |

**WHO CAN REFER?**

All CAMHS teams operate an open referral system, i.e. anyone concerned about a child or young person’s emotional / mental health can access the services. This includes self-referrals from the child/young person themselves or their parent/carer.

We encourage all referrals to be made using the service’s referral form, with these being emailed from a secure email address to the email address on the top of the form; or through a consultation/phone conversation with a member of the CAMHS Single Point of Access Service.

SPA Referral Doc Additional Information 01/2018 – Owner TEWV – Review due 01/2020
ALTERNATIVE SERVICES TO SPECIALIST CAMHS

On occasions that we feel that a referral should be managed by a different commissioned service to that offered by Specialist CAMHS. These may include:

- Child and Young People where behaviour issues are the primary concern, but no intervention has taken place by preventative services with e.g. Local Area Teams in York, North Yorkshire’s or East Riding of Yorkshire Prevention Service or Healthy Child Service, or parenting advice/programmes.

- Children and young people whose difficulties are associated with a normal reaction to recent life events, (e.g. bereavement, parental separation, adjustment to chronic illness), and who would be considered to be experiencing normal adjustment reactions.

- Children and young people whose problems are entirely education based and are best addressed by educational services such as specific learning or behavioural issues within the school environment.

- Children and Young People requiring cognitive assessment to exclude Learning Difficulties where there are no co-morbid mental health difficulties.

Please find below services which are available to support children, young people and families with a range of issues which may be impacting upon their psychological wellbeing, but where specialist CAMHS is not indicated as first line support or intervention. Please note this list is not an exhaustive list and the services may be subject to change.

Healthy Child Programme

The largest service is the Healthy Child Service and this is provided by Public health linked to local authorities where York and Selby CAMHS operate- namely North Yorkshire County Council, City of York Council and East Riding of Yorkshire Council. Staff who deliver the Healthy Child Service will include:

- Specialist Community Public Health Nurse (SCPHN)
- Healthy Child Nurses
- Assistant Practitioners
- Screening Technicians
- Administrators

This service will work in universal and community settings such as in schools, youth venues and in the family home. They will conduct health checks on children entering school and on transfer to secondary schools, they will be the first point of contact for schools where there may be concerns about the wellbeing of their pupils, they will offer advice and information to parents and work directly with children and young people to tackle their health issues. The service will have named nurses linked to each GP practice in their area. This service will also be responsible for measuring and weighing children as
part of the National Child Measurement Programme and will undertake immunisation and vaccinations.

**NYCC Local Authority Prevention Service 01609 780780**

This is a service for 0-19 year olds within the North Yorkshire County Council’s Children and Young People’s Service and it has brought together Integrated Services, including Children’s Centre Services, Youth Support Services and some aspects of the Education Social Work Service and Early Years support.

The ambition for this service is that families in North Yorkshire are able to access readily a range of support to ensure that their children are safe, happy and well, and that they can flourish at school and in the wider world. To achieve this the aim will be to identify issues early, have efficient referral routes in to the service and establish effective partnership working partners to provide appropriate interventions to prevent problems from escalating.

**What is it? It’s a service offering early help for the 0-19 age range.**

- The Prevention Service has brought together staff who had previously worked in separate services (Integrated Services, Children’s centre support, Youth Support Services, aspects of Education Social Work, aspects of Early Years support, and Healthy Child Services [5-19].)

- Staff who have a wide range of skills and expertise, are working together locally in one place to ensure that children, young people and families have speedier and easier access to the best possible support and help, when they need it.

- There are 12 locally based Area Prevention Teams across North Yorkshire.

- The Prevention Service only works with the agreed consent of the family or young person.

To make a referral for a Children and Families Service (either Prevention or Social Care) from January 2016, please use the NYSCB Universal Referral form and e-mail it to Children&families@northyorks.gcsx.gov.uk. Alternatively please telephone the Customer Contact Centre on 01609 780780. For evenings, weekends and bank holidays, please contact the Emergency Duty Team by phoning 01609 780780.

- We continue to encourage professionals to approach their local Area Prevention Manager to discuss potential referrals for Prevention as well as other provision which may be available locally. You can contact your local Area Prevention Team as follows:

  - Hambleton South – 01609 536206 (Easingwold)
  - Selby Town – 01609 532385
  - Tadcaster & Rural Selby – 01609 534022
Go to the NYCC website and check out regularly updated information on your local Children’s Centre web page; Children's centres - North Yorkshire County Council

http://www.northyorks.gov.uk/article/23548/Childrens-centres

- When families or young people are offered and accept support, they will have a named worker who will stay with them throughout the intervention.

- Help will be more joined up and provided where it is most needed so better information sharing between professionals will make sure the correct support is given when it can make the most difference.

**East Riding of Yorkshire Local Authority**

**Early Help and Safeguarding Hub 01482 395500**

Support and protection for children/young people (0-19 years)

If you are worried about a child/young person, you can contact the Early Help and Safeguarding Hub (EHaSH) to talk about your concerns and receive advice. Information on what happens when you contact EHaSH, who we share information with and how to follow up on your enquiry.

If you are worried about a child/young person or think that they might be at risk of harm, abuse or neglect, you can **contact the Early Help and Safeguarding Hub (EHaSH)** to log your concern and receive advice:

During office hours (Monday to Thursday 9am-5pm, Friday 9am-4.30pm), you can contact EHaSH on:

Tel: (01482) 395500

Email: childrens.socialcare@eastriding.gcsx.gov.uk

Outside of office hours, please contact the emergency duty team:

Tel: (01377) 241273

Email: emergency.duty.team@eastriding.gcsx.gov.uk

**Is the child in immediate danger?** Phone the police on 999.

**Still not sure if you should contact service?** If you are worried that a child/young person is being affected by:

- domestic violence
- abusive/exploitative relationships
- behaviour, emotional well-being/mental health
- alcohol and/or substance misuse
- welfare and benefits
- bereavement and separation
EHaSH can signpost you onto services that could support you and your family through the challenges you face.

**Making an enquiry/referral as a professional?** Professionals contacting EHaSH will be asked to follow up their telephone enquiry in writing using the confirmation of referral form. This should usually be done within 24 hours of raising the concern.

**Families Information Service Hub (FISH) 01482 396469**  
fish@eastriding.gov.uk  
www.fish.eastriding.gov.uk

- **Families Information Service** Hub (FISH), provide a source of information for families and practitioners working with children and young people. You can locate information related to childcare, support and services.

**City Of York Local Authority**

**Front Door (Children's Social Care)**

01904 551900  
childrensfrontdoor@york.gov.uk  
www.york.org.uk/frontdoor

If you are worried that a child or young person is at risk of, or is, being hurt or abused, the Referral & Assessment Team (Children's Social Care) can:

* take immediate protective action as necessary to child protection concerns;  
* undertake assessments of need in complex cases where children and young people may require specialist help and support.

The Child In Need Assessment Teams are also responsible for responding to other enquiries that might require the attention of a social worker but not an initial assessment of need (e.g. access to files requests; background checks on behalf of Cafcass).

Out of Office Hours  
Telephone: 01609 780780  
Email: edt@northyorks.gov.uk

**Local Area Teams:** City of York Local Authority

Local Area Teams (LAT) are a key part of York’s early help response to working with children, young people and families from pregnancy through to adulthood (the 0-19yrs (25yrs for disability) agenda). A Local Area Team (LAT) is a multi-agency team covering one of three defined geographical areas of York. The purpose of a Local Area Team is:

- To prevent the escalation of needs which may require, if not addressed, statutory, complex and costly interventions at a later point.  
- To reduce inequality of outcomes for our communities across York.
Local Area Teams are not just a set of council services. They are multi-agency and bring together all partners in a local area that exist in the lives of children, young people and families.

This represents the new offer built from previous work undertaken by areas such as Children’s Centres, Personal Support and Inclusion workers, Family Information Service, Connexions, Children’s Advice Team, Duke of Edinburgh, parenting, the Youth and Community Development Team and Family Focus.

The 0-19 Healthy Child Service delivers a universally available programme for all children, which aims to ensure that every child gets the good start they need to lay the foundations of a healthy life, provided by health visiting and school nursing teams. The universal reach of the HCS provides an invaluable opportunity from pre-birth to identify families that are in need of additional support and children who are at risk of poor outcomes. For children, young people and families with higher levels of need the Healthy Child Service can respond and support families as required.

A key feature of the new model is the multi-agency scalability of the new structure. Over the course of 2017 we will be working with a number of multi-agency partners to develop and extend the model. These include:

- Well-being workers
- Police / PCSOs
- Health providers
- Department for Work and Pensions
- Housing
- Community Links
- Local Area Coordinators

Bringing partners on-board makes the offer made by Local Area Teams much broader and richer.

**Early Help Advice and Guidance and Brokerage:** The LAT Duty Worker will discuss your Early help concern and provide advice and guidance regarding options for support and next steps. Where appropriate the Duty Worker will pass on the referral to the relevant Local Area Team to enable further information gathering.

**For access** phone Local Area Duty Number 01904 551900 (Select option 2) or email LAT@york.gov.uk

| **Young People's Service @ 30 Clarence Street**  
(CYC only) | If you are aged between 16-19 (up until your 19th birthday) you will be able to receive face to face support, telephone support, a texting and email service and 24 hour access to information and support from the online version of the **Survival Guide** and the **YorZone website**.  
Drop-in sessions will be available on Mondays, Tuesdays 12:30 - 16:30 and Fridays 11:00 - 15:00 to provide initial information and signposting to further support across the city that can help. For example for support to access housing and benefits advice, making appointments etc.  
Outside of drop-in times information can be access by contacting us on:  Tel: 01904 554444 - Email: fis@york.gov.uk |

**Youth Justice Services**

**York Youth Offending Team**

The York’Youth Offending Team’ (YOT) is made up of staff from the Police, Probation Service, Children’s Services and Health and has many partners including the Courts, Substance Misuse Services and Housing providers.

We work with young people from the age of 10 years old into young adulthood, who are at risk of, or involved in offending behavior.

We have the skills and abilities to respond to any risks or needs in the lives of young people, their families, and their victims, in York.

Contact 01904 554565

Where possible written referrals should be made using the standard Referral Form (see separate referral form), please note all sections must be completed. You can send an electronic copy to enable email of referral over secure networks i.e. NHS Mail etc.

We realise this document is lengthy but the intention is to help all referrers as much as possible, both with their CAMHS referrals and also with other information that may be of help when considering the most appropriate support service for their patient/client. It is not an exhaustive document but we have included some local and national services that may be helpful.

If you have any questions regarding the contents of the document please contact;

Angie Casterton  
**Clinical Nurse Specialist**  
01904 615338

John O’Brien  
**CAMHS Team Manager.**  
01904 615300

SPA Referral Doc Additional Information 01/2018 – Owner TEWV – Review due 01/2020
Eating Disorder Referral Requirements – Appendix A

We recognise the many challenges that general practice is facing currently and the impact on the workload of the general practice team from these, but hope it will be possible for you to please include the following information on referrals:

**Mental Health related issues:-**
- **Symptoms** indicative of an eating disorder & any associated mental health difficulties e.g. weight loss, avoidance/restricting of foods, fear of weight gain, body image distortions, preoccupation with weight/shape/food, binging, purging, excessive exercise, loss of periods.
- **Risk history** which may include information about thoughts & acts of self-harm and suicide, self-neglect, dangerous, impulsive behaviours.
- **Mental health** medical history, including medication.

**Physical presentations:-**
- **Physical health** history, including medication
- **Dietary** intake including level of hydration, dietary restrictions, vomiting or purging.
- **Current Height & Weight.**
- **History of previous weight & height** including trajectory of weight loss
  
  PLEASE NOTE: Weight loss of 500g plus in a week requires an urgent CAMHS referral.

- **BMI and % body weight for height BMI**
  
  PLEASE NOTE: Where weight for height is less than 80% this should trigger an urgent referral to CAMHS and where this is under 70% this requires an urgent paediatric or adult medical assessment at the nearest acute hospital

- **Physical examination** to rule out differential diagnoses of endocrine, gastrointestinal & oncological problems.
- **Standing & sitting blood pressure (BP), pulse & temperature.**
- **ECG** where there are abnormalities in BP & pulse or where there is rapid weight loss.

**Routine Blood tests results required at referral:**
- FBC
- U&E
- LFT
- TFT
- Calcium, phosphate, magnesium & zinc
- HBA1c
- Random Blood Sugar
- Vitamin B12 & Folate
- Iron & Ferritin
- Clotting
- Coeliac antibody screen
- Inflammatory markers
If this information is not provided a clinician from the CAMHS Single Point of Access Team will always contact the GP surgery to request the relevant information/tests but the obvious concern is that this might result in a significant delay in the young person being seen. Therefore, to enable children and young people to receive treatment in the most timely and efficient way please ensure this information is sent with any suspected Eating Disorder referral.

Please feel free to contact us to discuss any concerns.
