

## Vale of York

### Sources of information for health inequality data

#### Joint Strategic Needs Assessments (JSNAs)

JSNAs provide a lot of public health data on the health and wellbeing of local populations that can be used to inform the development of services to reduce health inequalities.

There is a dedicated website for York's JSNA to help to make sure the information in the JSNA is more widely accessible. To view the website go to [www.healthyyork.org](http://www.healthyyork.org).

North Yorkshire County Council has published a Vale of York Summary as part of the Joint Strategic Needs Assessment Annual Update 2016, this can be found at:

<https://www.datanorthyorkshire.org/JSNA/articles/north-yorkshire-jsna-annual-update-2016-ccgs/>.

The East Riding of Yorkshire Joint Strategic Needs Assessment can be found at: <http://dataobs.eastriding.gov.uk/jsna/jsnahome>

#### Vale of York Public Sector Equality Duty Report (PSED) 2017

The PSED report is produced annually to demonstrate how the CCG is meeting its equality duties. The 2017 report has extensive data on health inequalities experienced by protected groups as well as local demographic data. The report can be found here:

<http://www.valeofyorkccg.nhs.uk/data/uploads/governing-body-papers/5-january-2017/item-11-annex-a-psed-report-2016-17.pdf>.

#### Office of National Statistics (ONS)

This is the UK's largest independent producer of official statistics and the recognised national statistical institute of the UK. They provide a range of data including census data and population projections. They can be found here: <https://www.ons.gov.uk/>

#### Public Health England (PHE) Centres

The Yorkshire and Humber PHE Centre is part of NHS England and provides support to local authorities and the local NHS by providing local services across:

- health improvement
- public health

- health protection

They can be found here:

<https://www.gov.uk/government/collections/phe-yorkshire-and-humber-advice-support-and-services>

### **NHS Digital**

NHS Digital collect and provide a range of health and social care related data, information and reports to support patients, clinicians, commissioners, analysts and researchers. This includes data on indicators and audits IAPT data. They can be found here:

<https://www.digital.nhs.uk/home>

### **Equality and Human Rights Commission (HMRC)**

HMRC is Great Britain's national equality body. As well as safeguarding and protecting the laws that protect people's rights to fairness, dignity and respect, they also provide guidance support as well as evidence, analysis and equality and human rights law. They can be found here:

<https://www.equalityhumanrights.com/en/about-us/who-we-are>

### **Additional Data sources**

There are a number of other data that the CCG should have access to that can be used to help inform an Equality Impact Analysis, these include:

- Patient experience data
- Service user data – this can help identify if there are any over or under usage by any particular groups
- Complaints and compliments
- Previous relevant engagement activity
- Local health needs assessments
- National engagement, health needs assessments or research
