

How to Access the SR CCG Safeguarding Children App

At the current time, the App is only available for Apple users (iPhones or iPads). However, we are currently working on it being available for other smart phone & tablet users.

1. To access the App on an iPhone or iPad, please follow these instructions:

- i) Go to the Apple App Store on your mobile device;
- ii) Click on the “Search” icon: (a magnifying glass) at the bottom of the App Store opening page on your iPhone or a search box at the top right hand side of the opening page of your iPad;
- iii) Type “NYSGC” into the search bar/box, and click “search”). NB: if using an iPad you will need to ensure that the top left hand button ‘iPad only’ is changed to ‘iPhone only’. Despite this change, the App will still work on your iPad;
- iv) To access the “Contacts” tile on the app, you will need a login and password. These are as follows:
Login: “**srccg**”
Password: “**root**”
Please note that these are both case sensitive.

2. To access the app on a desk top device, please go to:
