## Practice Nurse Engagement

### What's in your Practice Nurse Engagement Bulletin?

This weekly bulletin provides details of training, guidance, access to past editions and lots more. There's also helpful information on the web pages dedicated to our practice nursing colleagues. [Please click here to bookmark these pages.](#)

## Need to know

### Help shape a new online service for adults with Type 2 diabetes

Public Health England are developing a new online self-management website for adults living with type 2 diabetes

The website will:

- Provide education and information about type 2 diabetes and its treatments
- Offer content on managing mood and stress
- Help with adopting and maintaining healthy behaviours (e.g. diet, exercise)

They would particularly like to hear your thoughts on the name, look and feel of the site.

PHE have been working with an insight agency who have already completed a number of in-depth interviews with people living with Type 2 diabetes and healthcare professionals. Following on from that work, the agency has created a short survey to gather thoughts from a wider group and would value all input.

The [survey](#) will take less than five minutes to complete and your answers will help to shape the new website. Your responses will be completely anonymous.

The survey is open until **Monday 2 September 2019**.

## **Join Dementia Research**

JDR are pleased to announce that over 20,000 study participants have been involved in vital research thanks to Join Dementia Research. The innovative service allows anyone to register their interest in dementia research so that they can be matched to potential studies they may be eligible to take part in. Stats released on Monday 5 August 2019, show 20,167 participants in total have now been recruited to studies. This is wonderful news, and an important milestone for Join Dementia Research. Launched back in February 2015 in response to the Challenge on Dementia, the service has made it easier than ever for people living in the UK to take part in dementia research. If you haven't already signed up and are keen to support Join Dementia Research please take a moment to log on and register

## **Training, development and education opportunities**

### **Rosalind Franklin Programme for Nurses in General Practice**

NHS England and Improvement have secured funding to run a second cohort of the Rosalind Franklin programme for GPNs and nurses working in primary care.

The programme aims to help shape middle-level nursing leaders' knowledge, skills, attitudes and behaviours to help them become outstanding leaders, and for primary care, to develop inclusive and compassionate nursing leaders working at all levels across the NHS to help improve patient care, people's health and their experiences of the NHS. To view the information brochure please follow this [link](#).

All applications must be completed online via <https://franklin-gpn2.apply.leadershipacademy.nhs.uk/>

## Nurse Leadership and Management in Primary Care Programme

Fully funded places are available for all Vale of York practices on this programme, which aims to arm nurse managers, supervisors and team leaders who work in a healthcare environment with the skills and supporting theory that will help them perform well in their role.

The programme consists of 4 study days over the course of a year, with an assignment at the end. Details of the subjects covered on each study day and further information on the programme can be found through this [link](#). Attendees need to be able to attend all 4 study days, planned dates are:

- 25 September 2019
- 4 December 2019
- 24 March 2020
- 9 June 2020

If you are interested in taking part please complete the booking form available in the link and return to [training@haxbygroup.co.uk](mailto:training@haxbygroup.co.uk) by **31 August 2019**. If you have any queries please don't hesitate to get in touch.

Funded places are limited and subject to availability, if demand exceeds availability places will be allocated fairly across practices within CCG localities. CCG representatives for each area, in collaboration with NHSE, will approve applications on this basis. Funded places have been made available by NHSE via the General Practice Forward View.

## **Nursing Associate: Deployment and Sharing Best Practice Conference**

**When:** 16 October 2019 in  
Leeds/York, and 30 October 2019 in  
Manchester/Liverpool

- Celebrate the introduction of a new regulated member of the Nursing and Midwifery workforce
- Share how organisations across the region have pioneered and embraced the role to positively impact on patient outcomes and experience
- Hear practical examples of how our first qualified Nursing Associates have been deployed

To register your interest for the conference please send your name, organisation, email address and preferred date to

[charlotte.sherlock@hee.nhs.uk](mailto:charlotte.sherlock@hee.nhs.uk)

Further information around this event will be circulated shortly

## Useful information

### Article: Support the Development of Healthcare Assistants

Please follow this [link](#) to view the above article that has appeared in the Journal of Community Nursing. The article was written by Rhian Last and Gill Hall from Education for Health.

Proud member of the  
**Digital Nurse Network**

### Digital Nurse Network Update

Upcoming dates for the Digital Nurse Network webinars can now be found through this [link](#). The next webinar will take place on Thursday 5 September

## Sharing good practice, insight and feedback

YOR-Insight is a soft intelligence tool to provide anonymous insights and feedback about gaps, issues or good practice.

Sharing information provides an excellent opportunity for the CCG to facilitate the sharing of best practice and lessons learned. [Open the YOR-Insight web tool](#).

The CCG are also looking for areas of good practice and shared learning to share with practice nurses across the Vale of York. If you have anything you would like to share please contact [sam.varo@nhs.net](mailto:sam.varo@nhs.net)
