Practice Nurse Engagement

Welcome to your new look PNE briefing.

Details of training and revalidation, past editions of the bulletin and lots more helpful information are all available on web pages dedicated to our Practice Nurse and Nurse Practitioner colleagues. [Please bookmark these pages](#)

Need to know

Run The York 10k for York Against Cancer (Sent on behalf of Dr Dan Cottingham, Macmillan GP Cancer and End of Life Lead for NHS Vale of York CCG)

I thought I would circulate details from York Against Cancer about running the York 10k for them.

I have entered this event this year with my son and bearing in mind the support they have given to us in the CCG area with dermatoscopes and the chemotherapy bus, I wondered if any runners would like to take this opportunity. They currently have 20 places left! Running through York on car free streets is truly inspirational. It is free to enter on the condition that you raise at least £100 for the charity. Tickets normally cost £29!

If you want to give it a go then details are below and I look forward to meeting you on the day!

Event Date: 4 August 2019 9:30am — 12:00pm. To enter please email office@yorkagainstcancer.org.uk or phone 01904 764466.

Living well with dementia

Yorkshire and Humber Clinical Network in partnership with Leeds Playhouse are looking to showcase the brilliant work helping people to live well with dementia in our region. They are looking for proposals for presentation or workshops for an event on Wednesday 25 September, with a particular interest in projects involving art and creativity. Please find a full briefing through this [link](#), and for any queries please contact nicky.taylor@leedsplayhouse.org.uk. The deadline for consideration at the July meeting is 24 July.

Training, development and education opportunities

Cervical screening training

When – 06-07 August 2019 (Further dates available in October and December)

Where - New Croft House, Newcastle.

What - There are 14 places available for an extra initial cervical screening training course taking place in Newcastle during August. The course will include two days of theory followed by clinical practice supported by a cervical screening mentor. For further information please follow this [link](#).

“On Becoming” Programme for physician associates

When: Programme begins 30 July 2019, with further modules in September, October and November.

Where: Venue TBC

What: Health Education England are inviting graduate physician associates to take part in their empowerment programme “On Becoming” which aims to empower PA’s to care for self and other. From this programme PAs will gain EMCC accreditation as a healthcare coach and mentor.

More information can be found through this [link](#). For queries please contact on.becoming@nhs.net. Please note the deadline for applications is 16 July 2019.

Useful information

Nursing associate leadership programme

Health Education England are offering fully funded training for 70 registered nursing associates to become Florence Nightingale Foundation nursing associates.

The leadership programme aims to create a clearer identification of

Postgraduate certificate for practitioners with a special interest in dementia

Applications are open for places on this 1 year course hosted by the University of Bradford. The course is open to practitioners from a variety of clinical backgrounds, and aims to enhance skills

personal leadership style, and create renewed self-reliance to tackle workplace issues.

The programme runs across 5 modules and 6 days beginning in November. The deadline for applications is 29 July 2019.

For information please follow this [link](#).

in assessment and diagnosis of dementia.

For more information please follow this [link](#) or contact D.K.Jones1@bradford.ac.uk

Please note the deadline for applications is 9 August 2019, with the programme starting in September.

Sharing good practice, insight and feedback

YOR-Insight is a soft intelligence tool to provide anonymous insights and feedback about gaps, issues or good practice.

Sharing information provides an excellent opportunity for the CCG to facilitate the sharing of best practice and lessons learned. [Open the YOR-Insight web tool](#).
