Webinar Three | 09 July 2019 NHS App update – what does it mean for nurses?

#### **Digital Projects**

This <u>link</u> is to a new digital projects form so you can share your projects with network. Please send the completed form to <u>england.digitalnursenetwork@nhs.net</u>

#### Survey

The team is collecting your thoughts and ideas to help create a programme of work that is built around your needs and interest. Click here to tell them what you think

#### **Further information**

For more resources, guides and conversations join the online <u>Digital Nurse Network</u> <u>community</u>. A guide on how to access content can be found through this <u>link</u>.

# Training, development and education opportunities

### **Cervical Screening Training**

When – 06-07 August 2019 (Further dates available in October and December)

Where - New Croft House, Newcastle.

**What** - There are 14 places available for an extra initial cervical screening training course taking place in Newcastle during August. The course will include two days of theory followed by clinical practice supported by a cervical screening mentor. For further information please follow this <u>link</u>.

### **Carers Awareness Training**

When - 2 July 2019 (Further dates available)

Where - West Offices, York

A reminder that York Carers Centre is offering introductory sessions on identifying and supporting unpaid carers, including around what resources and support groups are available.

To book please contact sam.varo@nhs.net

# **Quality Improvement for General Practice Nurses - 2 day programme**

When - 10-11 September 2019

Where - York. Venue TBC

NHS England's training scheme is available to all general practice nurses and is designed to build skills and confidence to make quality improvements within practice. For more information and to book a place, please view the <u>flyer</u>.

The deadline for applications is 10 August

### **Useful information**

Illustrated Guide to Quality Improvement

Motivational Interviewing Training

NHS East London Foundation Trust has produced a useful introductory guide to quality improvement, including how to initially identify a quality issue and how to engage a team in quality improvement.

To view the guide please follow this link

A series of opportunities to take part in motivational interviewing training is available throughout Autumn 2019. Motivational interviewing is a style of communication with patients designed to be reflective and guiding in nature.

For more information please follow this link

## Sharing good practice, insight and feedback

YOR-Insight is a soft intelligence tool to provide anonymous insights and feedback about gaps, issues or good practice.

Sharing information provides an excellent opportunity for the CCG to facilitate the sharing of best practice and lessons learned. <u>Open the YOR-Insight web tool</u>.
