Practice Nurse Engagement

What's in your Practice Nurse Engagement Bulletin?

This weekly bulletin provides details of training, guidance, access to past editions and lots more. There's also helpful information on the web pages dedicated to our practice nursing colleagues. [Please click here to bookmark these pages.](#)

Need to know

Practice Research Nurse and HCA Event

When: Monday 16 September 12:00-3:30

Where: Cloth Hall Court, Qubec Street, Leeds. LS1 2HT.

What: NIHR Clinical Research Network (CRN) are hosting a follow up event to their practice research forum that took place in March. The agenda to this event can be found through this [link](#), and includes updates on the upcoming CANAssess study around palliative care and ATTACK (Aspirin To Target Arterial events in Chronic Kidney Disease) study.

To book your place please respond to admin.crnyorkshumber@nihr.ac.uk to by Monday 19th August. If there is an insufficient number of attendees the event may need to postponed until later in the year.

Genetic Links to Anxiety and Depression (GLAD) Study: Poster

The CRN Yorkshire and Humber are inviting practices to display the poster for their GLAD study. This will allow your patients to 'self-register' to this Mental Health study. There are no site payments involved however the accruals will be mapped to your site. Anyone aged 16 years or older who has experienced depression and/ or anxiety (including OCD, BDD, and other related disorders) can join this study to facilitate future research. Participants will also join a national Mental Health BioResource and contribute to the largest ever single study of anxiety and depression.

All enrolment takes place online at www.gladstudy.org.uk. An online animation explains the consent process with more detailed information in text format. Once participants have provided consent and completed an online questionnaire, they will be sent a saliva DNA sample kit to enable genetic studies. All samples are managed by the study team.

There are no Service Support Costs allocated to this study. Accruals will be mapped to the GP site. In the case that the participants medical notes need to be reviewed at a later date the study team has provided confirmation that there will be funding allocated for this activity.

If you would like to take part and display the poster please inform joanne.holmes@nhs.net and the studysupport.crn yorkshumber@nihr.ac.uk to log your participation and to facilitate launching in your site, please fill out a brief online form to provide the GLAD team with your contact and practice details: https://is.gd/glad_nhs_survey

For the **recruitment strategies section**, please indicate that you will be using posters/leaflets and feel free to add any additional strategies you would like to implement. It will then ask you how many posters/leaflets you wish to have sent to you. We would prefer to send at least 200 leaflets, as they tend to run out quickly. You can **skip all of section 4 asking about site considerations**. If you aren't sure how to respond to an item, please feel free to skip the question or reach out to the GLAD team at GLADadmin@kcl.ac.uk

Training, development and education opportunities

Advanced Clinical Practitioner Conference

When: Monday 07 October 2019

Where: Horizon Leeds, 2 Brewery Wharf, Leeds, LS10 1JR

What: The role of the ACP continues to grow in importance, last year there were 681

Trainee ACP this year that number has grown to 832.

The conference will provide an opportunity to share good practice, identify the challenges and opportunities in developing advanced clinical practice in the workplace

Hear how the proposed HEE Academy of Advanced Clinical Practice (ACP) are:

- Developing and supporting national roles which are transferable
- Working in partnership with Post Graduate Medicine to ensure high quality programmes
- Developing new ACP clinical pathways, with associated curriculum/standards
- Establishing a robust credentialing process for each ACP pathway
- Developing an equivalence route to credentialing for existing practitioners
- Ensuring a register is in place, and the required clinical governance process, for each ACP pathway

Further information around booking will be circulated shortly

Further Training and Development

We regularly update the dedicated Practice Nursing training and development pages on our website. Below are just some of the courses taking place over the upcoming months. Please follow this [link](#) for more information and booking details.

Useful information

Digital Nurse Network: Webinar Three

If you wish to subscribe to the Digital Nurse Network please contact the new NHSx email address - digitalnursenetwork@nhsx.nhs.uk

The recording from webinar three of the Digital Nurse Network please follow this [link](#).

If you would like to book your place on the webinar four, please check the NHS England events [page](#).

Retention and Progress for ACP's and PA's

The Humber, Coast and Vale Faculty of ACP and PA is working to explore retention and also career progression and have designed a survey to investigate the factors behind this. The information will help inform as to the general picture of what is happening in the region, what is working or where more support or guidance is needed.

The survey will close on **23 August**. To access the survey please follow this [link](#).

Sharing good practice, insight and feedback

YOR-Insight is a soft intelligence tool to provide anonymous insights and feedback about gaps, issues or good practice.

Sharing information provides an excellent opportunity for the CCG to facilitate the sharing of best practice and lessons learned. [Open the YOR-Insight web tool](#).

The CCG are also looking for areas of good practice and shared learning to share with practice nurses across the Vale of York. If you have anything you would like to share please contact sam.varo@nhs.net
