

## Keep your vaccines healthy

- Order when you have two to four weeks' worth of stock left
- You can make weekly orders, so it's best to order smaller amounts regularly
- Some vaccines come in multidose packs check you order the correct number of doses
- Check Vaccine Update newsletter for latest information

## When receiving your order

- Check your delivery is correct and undamaged before you sign for it
- Refrigerate the stock as soon as you have checked it off against the order
- Do not over fill the fridge as this restricts the airflow
- Ensure the shortest-dated stock is placed at the front of the fridge

## When stocking your fridge

- Check expiry dates regularly never use out of date vaccine
- Keep vaccines in their original packaging in the main part of the fridge, not in drawers
- Keep your fridge door locked at all times
- Keep the opening of the fridge door to a minimum
- Use a maximum-minimum thermometer and keep a daily record of the temperatures
- Have back-up storage for your vaccines in case of power failure
- Position the fridge away from heat sources and mark or tape the fridge plug to avoid it being turned off accidentally
- See Chapter 3 of the Green Book for more information
