## Practice Nurse Engagement

### What's in your Practice Nurse Engagement Bulletin?

This bulletin provides details of training, guidance, access to past editions and lots more. There's also helpful information on the web pages dedicated to our practice nursing colleagues. [Please click here to bookmark these pages.](#)

### Online Basic Immunisation Training

Please see below the link for delegates to book onto the online basic immunisation training provided by the University of Hull. This Immunisation Training is essential for new immunisers. It would normally be delivered face to face over two days, however for now, it is being offered via a blend of online resources and group discussions. The information in the link explains how this is being delivered differently.

<https://shop.hull.ac.uk/conferences-and-events/faculty-of-health-sciences/departments-of-nursing/immunisation-training-for-new-immunisers-2-weeks-wc-20-27-july-2020?token=2613acaccff93528659b55875a4b9c6d>

The resources will be released over the course of two weeks (**w/c 20 and 27 July**) and delegates are free to work through them at their own pace. On the

Friday of each week (Friday 24 and 31 July) between 10-11am, online group discussions are scheduled – this is an opportunity for delegates to consolidate their learning from that week and ask any questions.

Delegates will be contacted with the links to access the resources and group discussions nearer the time.

**The Two Week Basic Training is Free of charge to staff employed in a North Yorkshire and Humber CCG. Please note the date for last booking is 19 July**
