Practice Nurse Engagement

What's in your Practice Nurse Engagement Bulletin?

This bulletin provides details of training, guidance, access to past editions and lots more. There's also helpful information on the web pages dedicated to our practice nursing colleagues. [Please click here to bookmark these pages.](#)

Need to know

Funded Nursing Associates Programme- Expressions of Interest

Please find attached information pack for general practices relating to Nursing Associate training and available funding.

If you are keen to express an interest please return the EoI form at the end of the pack.

- University of Hull September cohort 2020 – application deadline 3rd July, Interviews Monday 27th July via Zoom.

- Coventry University, Scarborough September cohort 2020 – deadline TBC but as soon as possible for applications
- York University January 2021 cohort – deadline TBC but soon as possible for applications **please note that funding is currently only available until December so the amounts in the pack would not apply to this York cohort.**

More information will be shared as soon as interview dates and EoI deadlines are confirmed for the universities still planning these.

Regarding English and Maths please see the pack for free use of a learning platform for anyone that needs Level 2 functional skills, this is not just for TNA students but anyone in Primary Care that would like to get this training or anyone considering an apprenticeship that would need these qualifications. If you already have English and Maths GCSE at C or above (or equivalent) they would not need to do the Functional Skills version to qualify for an apprenticeship, as long you have proof such as a certificate.
