Webinar: Clinical Staff Involved with Flu Delivery

Wednesday 30 September from 12.00-1.00

Dear colleagues,

In response to some queries we have had, we are setting up a webinar for any clinical staff involved in the flu delivery program.

Our aim is for this to be informative, but also to give you the opportunity to ask any questions and clarify any issues you may have.

We hope also that this could be the start of a series of 'learning/ sharing' events where we can have sessions around topics that are collectively important to you.

The first session will aim to follow the following format – but influenced by any feedback or ‘asks’ that you may have also

- Update regarding this years Flu vaccination campaign & who is doing what in the system
- The ‘Nimbus’ Drive through model
- Update regarding Flu vaccine administration
- Q&A’s & opportunity to share any issues, solutions, good practice etc.

So please join us if you can! Joining details for the session are below. The session will take place through Zoom.
