Resources and Expressions of Interest- GPN CARE Programme

Please find through these links the [slide pack](#) from the recent CARE event along with an [Expression of Interest form](#).

CARE offers general practice nurses and other primary care professionals practical learning around population health innovation, strengthening leadership and improving wellbeing through webinars with subject matter experts, digital tools and a dedicated community of support. It has also been designed in line with the NHS LTP – practical population health improvement projects in PCNs, which are measured and evaluated in real time and already making a difference.

The following videos are also available for your information:
