Practice Nurse Engagement

What's in your Practice Nurse Engagement Bulletin?

This weekly bulletin provides details of training, guidance, access to past editions and lots more. There's also helpful information on the web pages dedicated to our practice nursing colleagues. [Please click here to bookmark these pages.](#)

Practice Nurse Forum and Catch Up

When: Thursday 25 Feb. 12.30 – 1.30pm

We'd like to invite you to come together over a brew or lunch if needed. Really conscious of how pressured life is in primary care, so wanted to give you the opportunity to come together as Practice Nurses to consider further how your roles can be supported and any professional aspects you feel would be valuable to explore as a group.

We will keep it informal

Sarah Goode is going to talk briefly regarding the approach to supervision she is leading on across the region and whether this is a model that could be taken forward which can hopefully lead us onto consider any other aspects that we could take forward to help with wellbeing and resilience moving forward.

A calendar invite for this session has been sent out. Look forward to seeing you.

Paula Middlebrook
Deputy Chief Nurse, NHS Vale of York CCG

Health Education England

Health Education England NEY Engagement Q&A Session- NMC Emergency Standards

In North East and Yorkshire, HEE genuinely care about their students, practice educators and the wider student support roles and want to ensure that training and education remains a great experience all and that they feel valued and supported. The last few months have been extremely challenging for health care workers and learners and they are forever grateful for your commitment, flexibility and professionalism in supporting them through this.

The COVID pandemic forces the NHS and wider health care system to adapt to increasing and dynamic changes in the way services are delivered. They know that this is affecting the traditional placement experience and will continue to do so.

Therefore, they wanted to provide you with the opportunity to meet with representatives from their Clinical Advisory Team within HEE so that you can ask them questions about what they expect to happen over the coming months in relation to the placement experience aligned to the emergency standards. The session will be facilitated by Professor Laura Serrant, Regional Head of Nursing and Midwifery and Michelle Bamforth, Deputy Head of Nursing and Midwifery.

The sessions will be held on MS Teams on the following dates:

- **Thursday 25 February 2021 at 1.00**
- **Friday 26 February 2021 at 12.00**
- **Friday 5 March 2021 at 12.00**

Please begin the joining process 10 minutes prior to the start of the session and ensure that your microphone is muted.

In preparation for the sessions they would be very grateful if you could please submit your questions in advance. There will be an opportunity to ask additional questions during the session. However, they may not be able to address all your questions if large numbers of delegates attend.

To submit your questions please use the following link: [HEE NEY Engagement Q&A Session: NMC Emergency Standards](#)

Advanced Care Practitioners Apprenticeship Route Recruitment 2021/2022
