Initial training refers to the first time that a professional is in a role that requires Level 3 child safeguarding training.

This training is 5 hours of participatory learning. Please note that guidance states that 16 hours of level 3 training is required for competence in total; 50% of which is required to be participatory and the timeframe for this initial training should not exceed a 12-month period from commencing in post.

The additional required hours can be gained by accessing further Level 3 safeguarding training such as Group case discussions, our 'hot topics' training, reflection on the learning from a case the professional has been involved in and how this learning has been applied to their practice as well as attending safeguarding webinars. **It is the individual's responsibility to complete the required hours.**

Aim

- To give participants the opportunity to identify and act upon areas of concern which may impact on the welfare and safety of children
- To give participants an increased understanding of the Child Safeguarding process and their role within that process

Objectives

- Recognise what constitutes a child safeguarding "concern"
- Importance of maintaining a child focus
- Identify the roles and responsibilities of other agencies
- Have an awareness of holistic assessment and good documentation
- Identify adult behaviour which may have a negative effect on the welfare of children
- Identify those professionals to be consulted for support and advice
- Recognise the role of health staff in multi-agency information sharing and decision making at all stages in the safeguarding process
- Have a clear understanding of the safeguarding conference processes
