Trainee Nursing Associate Role- Supporting and Funding

Please find through this [link](#) the slides shared at last week's Senior Practice Nurse Forum by Victoria Scorah from Haxby Group Training. This includes:

- What roles a TNA can perform, how these can be shaped around the specific needs of a practice, provide an opportunity for HCA's to progress and free up nurse capacity.
- Details of requirements to apply and how placements work.
- The support available from the Primary Care Workforce Hub to assist with coordinating placements and advice on what support the TNA may require.
- Leaflets and resources including a workforce planning document and job description.
- Funding opportunities.

GPN CARE Programme- Places Still Available

As discussed at the Senior Practice Nurse Forum this week, places are still available for the June cohort of the GPN CARE Program. This is focussed upon

leadership of or Senior Practice Nurses, particularly those who are or looking to take a leadership role at PCN level. This is an excellent opportunity to invest in yourself and help shape the future of Primary Care nursing.

Please ignore the original deadline for EoI on the attached form – send any direct through to

cari.jones@nhs.net

Please find attached the slide pack from the recent CARE event along with an Expression of Interest form.

CARE offers general practice nurses and other primary care professionals practical learning around population health innovation, strengthening leadership and improving wellbeing through webinars with subject matter experts, digital tools and a dedicated community of support. It has also been designed in line with the NHS LTP – practical population health improvement projects in PCNs, which are measured and evaluated in real time and already making a difference.

We also have the following videos for your information too:

- Karen Storey, Primary Care Nursing Lead, NHS England and NHS Improvement, explains how the CARE programme is supporting GPNs to reach their leadership potential - [click here](#) to watch
- Paul Vaughan, Head of Perceptions and General Practice Nursing, NHS England and NHS Improvement, explains the importance of valuing the talents and role of general practice nurses - [click here](#) to view
- Dr Johnny Marshall, President, NAPC, outlines the core elements of the CARE programme - [click here](#) to view
- Animation explaining the value GPNs bring to primary care networks and how support like the CARE programme can improve services and the professional experience of GPNs - [click here](#) to view
