Practice Nurse Engagement

What's in your Practice Nurse Engagement Bulletin?

This weekly bulletin provides details of training, guidance, access to past editions and lots more. There's also helpful information on the web pages dedicated to our practice nursing colleagues. [Please click here to bookmark these pages.](#)

GPMplus Mentoring Offer Available to Practice Nurses

Earlier this year YORLMC launched GPMplus – a mentoring service designed specifically for GPs, Practice Nurses, Practice Managers and other practice staff with leadership responsibilities. The service is funded through GPFV grant funding and so is free at the point of access, and all mentees are able to receive at least 8 hours of mentoring support. It is available to anybody you would like to explore ways to develop themselves or have a career problem or opportunity they're not sure how to move forward with.

GPMplus can help with:

- Move forward with personal and career goals
- Work through a problem or potential opportunity you feel you may have
- Manage transitions positively
- Build confidence
- Improve your work life balance
- Build your resilience
- Achieve your aspirations

A [leaflet](#) is available that outlines the service, and more information can be found through the [GPMplus website](#).
