

Information for clinicians

The Paediatric Ambulatory Treatment Hub is managed by a team of experienced professionals including a paediatric nurse, GP, Advanced Clinical Practitioner with remote support from a paediatric consultant.

Open: Mon – Fri 14.30-20.30

Appt length: 40 minutes (plus 1h observation time if needed)

Location: Health Village, Askham Bar

The aim of the clinic is to ensure parents have the knowledge, skills and confidence to care for their child at home, while also identifying children that require the additional observation, oxygen supplementation and feeding support that the hospital can provide.

Please provide patients with a digital information leaflet about their condition and provide verbal safety netting advice about 'red flags' Also send the parent PATH leaflet contains important location and contact information.
