Paediatric Ambulatory
Treatment Hub

Information for parents and carers

A team of experienced professionals at the Paediatric Ambulatory Treatment Hub will provide a follow up review of your child.

During your initial assessment with a primary care practitioner a further review has been advised so it is important that you attend this appointment.

The team will be able to provide advice, information and support. You will have the opportunity to ask any questions you may have about your child's condition.

Children can change quickly and if at any time your child displays any of the 'Red' features in the box below you should seek **EMERGENCY HELP**.

RED

If your child

- has blue lips
- or is unresponsive or very irritable
- is struggling to breathe
 - pulling in of the chest or neck muscles
 - using tummy muscles
- or has unusually long pauses in breathing
- or has an irregular breathing pattern
- or is unable to swallow or is drooling
- is too breathless to feed or speak
- is unable to take fluids
- is pale, drowsy, weak or quiet

SEEK MEDICAL ADVICE TODAY

Please call your GP surgery,
or, if it is closed call NHS 111
Your GP may want to speak to
you on the phone first to give
you medical advice. They will
arrange to see your child if
it is appropriate.

GREEN

If none of the features in the red or amber boxes above are present

SELF-CARE

Using the advice on this leaflet
you can care for your child at
home.

The most important advice is to
keep your child well hydrated.

If you feel you need more
advice, please contact your
local pharmacy, Health Visitor
or GP surgery.

You can also call NHS 111 for
advice.
