

Advance Care Planning skills

An opportunity to develop skills needed to lead conversations on end of life care preferences.

Network one: 4 & 12 July

Network two: 5 & 12 September

Through shared learning, understanding and discussion with experienced Palliative Care specialists and colleagues from across the health and social care sector we will enable best practice to support you in your role.

Sessions take place on Zoom between 2-3:30pm, and you will need to commit to both network sessions to maximise and consolidate learning in this field.

Places on this free course are limited; to register or enquire contact
