- Conflict of Interest and Confidentiality Form signed before evaluation commenced and potential conflict was identified on the form.
- Ability to influence any decision is negated by multiple evaluators which will remove any possible bias held by single evaluator
- Consensus meeting independently moderated by experienced Procurement Lead who facilitates the consensus discussions, and subsequent award of consensus score ensuring probity and no bias to any provider. No one member of the panel would be allowed to influence any of the scores awarded.
- Evaluation is purely focussed on the evaluation criteria and scoring methodology detailed in the tender documents. All scores are accompanied by a robust narrative which forms the feedback process.
- Panel members do not have access or sight of the consensus score sheet and final scores until the Award Recommendation Report is produced for approval.
