### Reducing medicines waste in Humber and North Yorkshire

In Humber and North Yorkshire 3.4 million medicine items are wasted unnecessarily every year, through patients filling repeat prescripts where they no longer require medication.

The ICB is launching a marketing communications campaign in September aimed at reducing medicines unnecessarily ordered on repeat prescriptions. The campaign will target a primary audience of patients aged 65 and over as this group are more likely to have medications on repeat prescriptions. The secondary audience are people over 45 with a long-term condition.

As part of the campaign, we're also asking Care Homes to be mindful when ordering oral nutritional substitutes and take a moment each month to check what is needed for the people in their care.

More information can be found at <a href="https://letsgetbetter.co.uk/yourmeds/">https://letsgetbetter.co.uk/yourmeds/</a>

We would like to invite you to attend the 36th in the series of Enhancing Care for Older People (EnCOP) webinar: Supporting Ageing Well - Tackling Loan Sharks: An insight into illegal money lending - the detrimental impact it can have on lives and what support is available

The Webinar will take place on **Tuesday 16<sup>th</sup> September 2025 at 13:30-15:00** and the joining link is below:

If you have any additional needs, please email <u>michelle.coleman12@nhs.net</u> and we will do what we can to help you.

#### **During the session**

We will keep participants muted and cameras turned off whilst we are presenting. This avoids distracting our speakers and reduces sensory stimulation which is important for some people. However, if you wish to ask a question you can do this by adding it to the chat box.

If you need a break at any time during the session, then please leave the meeting and re-join again when you feel ready.

Information on accessibility features in Teams can be found here: <a href="https://support.microsoft.com/en-us/office/accessibility-support-for-microsoft-teams-d12ee53f-d15f-445e-be8d-f0ba2c5ee68f">https://support.microsoft.com/en-us/office/accessibility-support-for-microsoft-teams-d12ee53f-d15f-445e-be8d-f0ba2c5ee68f</a> and you can contact us with any other accessibility questions.

The webinar will be recorded and will be available after the session.

Gas Safety Week 2025 is taking place from 8th - 14th September, and once again we invite you to take part in the industry's largest awareness week, to help promote gas safety amongst the public and drive home the importance of getting all gas appliances safety checked annually by a Gas Safe registered engineer.

The theme for this year is 'Looking after your home, friends, and family', emphasising that everyone has a role in keeping the nation gas safe. So, whether you're responsible for your own family's gas safety, own rental properties, or can simply share safety advice with those around you, we can all make a difference.

Need to jumpstart your support for the week? Download the toolkit today.

We are pleased to announce that the Gas Safety Week 2025 toolkit is available to download on the Gas Safety Week website. The toolkit features new materials aligned with this year's theme. Including social assets, a leaflet, poster, factsheets, and other resources that are tailor-made to share across your own channels, business, and community.

Visit the Gas Safety Week website to download the toolkit and access all the resources you need to help you support the week.

#### **URGENT SAFETY ALERT – Fire Risk Associated with Emollient Skin Creams**

We are writing to share an important Medicines and Healthcare products Regulatory Agency (MHRA) safety alert regarding the use of emollient skin creams in care settings. These products are vital in managing dry skin conditions such as eczema, psoriasis, and ichthyosis, but they carry a serious fire risk when residue builds up on fabrics.

#### **Key Risk**

- Emollients (including paraffin-based and paraffin-free) can transfer from skin to clothing, bedding, dressings, and soft furnishings.
- Fabric with dried-on emollient can ignite much more quickly and burn more intensely when exposed to a naked flame or heat source.
- Washing at high temperatures may reduce but does not completely remove the residue.
- The risk is very rare but can be fatal, and incidents have occurred in the UK.

#### Those Most at Risk

- Residents who smoke or are exposed to naked flames/heat sources.
- · Those with reduced mobility or who are bedbound.
- Individuals using large amounts of emollients over large body areas.

#### **Actions Required in Care Homes**

- 1.Do not stop using emollients they are important for skin care. Continue as prescribed.
- 2. Risk Communication Ensure all staff, residents, and families understand the fire risk.
- 3. Flame & Heat Avoidance Residents should not smoke, cook, or sit close to open fires, gas hobs, halogen heaters, or candles when wearing clothes or dressings contaminated with emollients.
- 4. Clothing & Bedding Care Change and wash daily where possible at a high temperature; use uncontaminated throws or covers on chairs; rotate bedding frequently.
- 5. Smoking Risk Reduction Offer smoking cessation support; if smoking continues, consider supervised smoking, safety lighters, and positioning away from combustible materials.
- 6. Engage Fire Services Contact your local Fire and Rescue Service for on-site advice and risk reduction strategies.
- 7. Documentation Record that residents and carers have been informed of the risks and advice given.

#### Resources

The MHRA, in collaboration with the National Fire Chiefs Council, has developed free resources to support awareness:

- Information leaflet for residents and carers
- Posters for communal areas
- 60-second safety video

These are available at: Safe use of emollient skin creams to treat dry skin conditions - GOV.UK

## Creating Change – the third annual U&ME Conference for Young Onset Dementia

7 Date: Tuesday 14 October 2025

• Time: 9:30am - 5pm (stallholders from 9am; delegate registration from 9:30am; conference begins at 10am)

📍 Location: Elland Road Stadium, Leeds LS11 0ES

The conference will be opened by Professor Martin Green OBE, CE of Care England, who has described young onset dementia as "one of the biggest challenges facing the care sector."

Throughout the day we will explore the theme of Creating Change, including:

- Change not Crisis an in-depth look at mental health wards and sectioning, led by Emma Wolverson (Dementia UK) alongside a carer with lived experience and an insight into associated funding
- Creating Change in Care Settings learning from care experts who have successfully adapted services for young onset dementia
- Creating Community exploring how arts, sport and other community initiatives, including the work being done at Leeds United Football Club, can support people
- Changing Clinical Care looking at why diagnosis and clinical practice need to change, with examples of where this has been done and how
- Workshops on inspiring culture change on both a large scale influencing practice across the country and on a small scale for the individual
- Marketplace a variety of stalls from businesses, voluntary sector organisations and researchers, giving you the chance to network and connect
- Tickets are priced at £50, which includes lunch and refreshments throughout the day. Available here: <u>youngonsetdementia.org.uk</u>

#### Social Care Resilience-based Clinical Supervision

#### \*\*NEW 13th Edition - Preventing Infection Workbook: Guidance for Care Homes\*\*

We are pleased to announce the new revised <u>Care Home Workbook</u> to support the IPC education of your staff in relation to CQC registration requirements.

This comprehensive Workbook is designed for all staff and they should receive their own personal copy to work through at their own pace.

#### The Workbook provides:

- Evidence-based information
- 20 topics including the 10 Standard infection control precautions, Antimicrobial stewardship, Aseptic technique, Specimen collection, Urinary catheter care, UTI prevention, C. difficile, MRGNB, MRSA, Respiratory illnesses and Viral gastroenteritis/Norovirus
- Each topic includes a 'Test your knowledge' section
- When 100% IPC knowledge has been achieved, managers sign the 'Certificate of completion' at the end of the Workbook, providing evidence for CQC compliance
- The Workbook should be kept by the member of staff as part of their portfolio of evidence of learning and can be used as a reference guide for day-to-day working

Quantity	10-15	16-30	31-45	46-60	61+
Price per workbook	£5.49	£4.95	£4.39	£3.85	£3.29

#### A 10% NORTH YORKSHIRE AND YORK DISCOUNT WILL BE APPLIED

After 12 months from your original order for the Workbook, we will contact you to offer you the option to purchase a new set of questions for staff to use with their original Workbook. This is helping to provide a cost effective means of ensuring staff receive their annual IPC training for a second year. The cost for this new set of questions would be £1.00 (less a 10% NYY discount) per member of staff and you would receive a new Question sheet, Answer sheet (for managers) and Certificate. These would all be sent via email.

We would also like to inform you that we are currently reviewing the 'IPC CQC inspection preparation Pack for Care Homes' with an anticipated launch date during September 2025. This means that we are now able to offer copies of the current CQC Pack with a 50% discount at £44.99 per Pack.

For further details on ordering the Workbook and/or the discounted CQC Pack, visit: <a href="https://www.infectionpreventioncontrol.co.uk/resources/order-form-for-care-homes/">www.infectionpreventioncontrol.co.uk/resources/order-form-for-care-homes/</a>

# Nursing placement strategy: Connecting locally to meet the recommendations of the strategy

Wednesday 10 September | 13:00 - 15:00 | Online

This online follow up event aims to bring together local social care providers, universities and colleges in the same region to explore how the recommendations of the strategy can be implemented so together we can make social care a placement of choice for all student nurses and nursing associates.

There will be regional breakout groups, Q&A session and panel questions with key stakeholders involved in nursing education and care provision.

This event is open to anyone with an interest in social care nursing placements and would be particularly useful for:

- Universities and colleges offering nursing education programmes.
- Nursing programme, placement (including nursing associates) and workforce leads.
- Providers who have an interest in the nursing workforce.
- Social care learning providers.
- People with lived experience in social care who want to influence.
